Donald J. Trump

Look what happened to the autism rate from 1983-2008 since one-time massive shots were given to children. This chart was given to me by a parent of two autistic children. I may not be a doctor but I have lots of common sense. Read my previous statements on autism...

Halleigh Hill @kathy Sayers - if better reporting is the cause of the rise then where are all the autistic 50,60 & 70 year olds ? Those born prior to 1979 only had 6 vaccines ! I am not saying they cause them but I think the over vaccination of today's use is NOT helping the epidemic !

Becky Elaine About the autism rate being 'so high'... I agree it's a tragedy... I agree it seems to be more prevalent.... But here is a thought... How many undiagnosed adult autistic people do you know? I know a lot of them.... Back in 83' when the statistic was 1... [See More](#)

Yesterday at 2:54am · 7

Becky Elaine @elda... To say that the 'Amish don't have autism' is just silly. Have you ever spent actual time around these kids??? They have so much undiagnosed autism it's crazy 😞... The only reason why they 'don't have it' is because kids are treated differently... [See More](#)

Alan John Pockley Yeah polio would be better, a debilitating disability you're joking right?

Yesterday at 3:29am · 2

Jeff Hoefen Vaccinations cause autism

Yesterday at 4:00am · 4

Lesli Richards People keep saying that there have been studies...someone please cite me just one study of all the vaccines together, not just one at a time.

Yesterday at 4:38am · 3

Quentin Terpstra Big pharma has this all figured out. They just inject a bunch of vaccines and make a ton of dough from buying off politicians to make it mandatory to inject them, they buy off doctors to write studies about how they are all safe and then when people contract autism or other problems they medicate that too and make more money. IT IS ALL ABOUT MONEY!!!

Yesterday at 5:14am · 6

Marilyn Rosengarden Frederick It just makes sense. Why pump babies up with all of these vaccines. Seniors need it, but babies?

Yesterday at 5:46am · 1

Angie Marie sorry, it's doctors over classifying the way they did with ADD/ADHD before. if parents would spend some time with their kids and tell them no, they wouldn't need a reason to blame and many would not be classified!

however, I agree with Becky that the other reason is due to the fact that before they went crazy over-diagnosing, they didn't diagnose properly either

Yesterday at 5:53am · Edited · 2

Carrie Ann Booth Angie Marie, I have a son with autism and ADHD, I spend lots of quality time with him and I do tell him no, He is a very good , kind , giving, loving , respectful, and gracious young man. He won a presidential education award last year for having a 4.0... [See More](#)

Jessica McClovin Travis lol I totally appreciate you tagging me in stuff! This is on the back of my clip board when I go out collecting signatures.

22 hours ago · 2

Leona Di Amore I appreciate you see that profit of drug companies is CREATING diseases which creates lifetime customers it's not about health

21 hours ago · 1

Tamara St John Exactly, it doesn't take a rocket scientist to figure out that the use of vaccines is for experimenting on children and it has had detrimental effects in the form of autism, cancer rates and even death. Sad that more people don't do their own research and just listen to a doctor who was brainwashed by big pharma.

On correlation, causation, and the "real" cause of autism

IO9.COM | BY ROBBIE GONZALEZ

21 hours ago · 1

Annette-John Jamieson Its from all the chemicals in our food, environment and water. The chemicals attack the nervous system and one outcome is autism. Just like the anti fungal spray on grapes. That chemical marker has been found in later generations that were not ever directly exposed to it.

20 hours ago · 3

Donna Harmony-Jones If the stats posted by Mr. Trump are accurate, clearly SOMETHING has occurred over the past 25 years in our country to cause this rise in Autism. Why would we not explore every possible potential reason?

Debbie Phillips Don't everyone scream at me at once....but I have a theory about Autism mainly being in boys. Are their fathers taking VIAGRA? Causes less blood to the brain, would be a drug that could cause this in male fetuses. Everyone blames the mom for drugs during pregnancy.....where does the VIAGRA go in a woman's body?

19 hours ago

Karen Schwarzman Fallick I'm a huge Trump supporter, however, 1) people weren't classified autistic back then. They were "hyper". 2)kids aren't out using their big muscles these days. Too busy playing video games and on the computer. In order to make your brain function as a w... [See More](#)
